Archery Range: The **range is ready** to go for anyone wanting to practice their archery skills and/or prep for the archery deer season. Please use field points only on the range. The walk into the range is about ¼ mile through the woods. Bows must be cased while walking into the range. The range is located off Wilderness Road in La Riviere Park on the southeast side of Prairie du Chien.

Mississippi River Adventure Day on Aug 5 at Lawler Park was enjoyed by about 60 youngsters. There were six stations where attendees experienced river activities including our fishing and casting class. Randy Christianson from Cabela's and Dave Ralph helped three club members, Rodney Boardman, Jerry Cummings, and yours truly with the event. Keep the early August date in mind for the 2025 event. We will need a few club members who would like to share their knowledge of casting or fishing with the kids that show up. Your help would be appreciated.

The fall Hunter Education Class that started Aug 10 had 6 graduates.

Wildlife needs food, water, cover, space, and arrangement. Altering any of these needs changes the habitat of wildlife. Changing habitat, especially plants that provide food and cover, can be done on your property. Look into changing habitat, like tree and shrub planting, water features, invasive plant control, and timber stand improvement. Doing so you can improve your property for the wildlife you would like on your property.

Trap range shooting on Wed nights is currently set from 4 p.m. to closing time. If you want to help out Rich Noel with the trap shooting please contact him at 608-412-3948, or just show up on Wed afternoons for the shoots to lean a hand..
